

Listed below are the five substations of phase 1 of the TriCoLink fiber project. We included specific road names to prepare you for construction in your area. All of the areas listed below are scheduled to have access to high-speed broadband internet and phone service before 2021.

Our initial fiber offerings are for Tri-County Electric members only. If you live on or nearby any of these roads but do not have Tri-County Electric service, we will explore the idea of offering broadband service to those nearby communities in the future.
